For Immediate Release

SHOCKWAVE POWER™ AND LOWER MONOGLYCERIDES ARE COMING TO ORLANDO

The ShockWave Power™ Reactor Will Be On Exhibit At the National Biodiesel Conference & Expo 2012 In Orlando, Florida

Rome, Georgia- It was announced today that the ShockWave Power™ Reactor will be exhibited at the National Biodiesel Conference 2012 in Orlando, Florida in booth #901. Each year, the National Biodiesel Conference & Expo is the largest biodiesel event in the United States and one of the premier biodiesel events in the world. The Conference & Expo will be held February 5-8, 2012 at the Gaylord Palms Resort and Convention Center in Orlando, Florida. For more details visit www.biodieselconference.org/2012.

“We are pleased to be exhibiting at the National Biodiesel Conference & Expo.” said Thomas McGurk, President of Advanced Biofuel Solutions. “The ShockWave Power™ Reactor technology excels in providing plants a tool to achieve lower monoglyceride levels, the major issue facing producers. Each year biodiesel producers, plant builders, and investors from around the world attend the Conference to learn about the latest technological developments driving the industry. This is the ideal venue to show the reactor technology that is transforming the biodiesel industry.”

Harnessing the power of cavitation, the ShockWave Power™ Reactor drives the transesterification reaction to completion in seconds. In continuous or batch systems, the ShockWave Power™ Reactor gives biodiesel producers greater feedstock flexibility and the power to achieve consistently superior quality. The ShockWave Power™ technology is in use in the largest biodiesel plants operating today. With over 400 million gallons per year of reactor capacity sold to the biodiesel industry, the ShockWave Power™ Reactor is setting a new standard for biodiesel production.

The ShockWave Power™ Reactor (SPR) is manufactured by Hydro Dynamics, Inc., a world leader in process intensification reactors. Together with World Energy, an internationally respected biodiesel producer, Advanced Biofuel Solutions offers reactor systems to the biodiesel industry for every size of plant and the expertise in biodiesel processing necessary to implement ShockWave Power™ Reactor in any new or existing biodiesel production facility.
